COLD WEATHER BOOTS 2021-22

TRADITION & INNOVATION SINCE 1923

#ForTheNextStep

EMBRACING NATURE IN EVERY SEASON

If we've learned one thing from this oh-so-challenging past year, it's that nature is the great healer. Heading outside to explore a new local trail or just taking a walk in a park – 2020 was the year when millions of people rediscovered the importance of getting outside to stay healthy and sane. We heard daily from our (your!) customers that our footwear has helped them experience the healing power of the outdoors – and it's gratifying to know that we have the product that allows them to get outside in every season.

The **2021 COLD WEATHER COLLECTION** is built around the core values of our brand: durability, quality, a high level of functionality and fair production conditions. We use a range of GORE-TEX waterproof/breathable linings and insulations to keep feet comfortably warm and dry on cold and wet days, and offer outsoles that provide great grip on muddy, icy, snowy and wet surfaces. All of this functionality goes into styles that can take customers from chilly fall days in the city to very cold days in the mountains, and everything in between. And, like all LOWA Boots, this entire collection is made in Europe under the world's most stringent production conditions.

New product highlights include:

- **Ottawa GTX** for men & women – a versatile, sporty winter hiker
- **Trident III GTX** for men & women – an updated version of a longtime LOWA favorite
- **Kazan II GTX** for men & women – a taller winter sneaker style
- **Fedaia GTX** Ws for women – a lightweight pull-on style

Thank you for your past and future business!

Your friends at LOWA BOOTS

COLD WEATHER BOOTS

These models are insulated for winter days with cold conditions.

- GORE-TEX Partelana® warm synthetic-wool lining keeps your feet warm and dry
- Insulated fleece insole protects against chill from below

These models are insulated for days with normal fall-through-spring conditions.

- GORE-TEX Panda® synthetic fleece lining keeps your feet warm and dry
- Insulated fleece insole protects against chill from below

WENDELSTEIN WARM GTX

MSRP: \$360

Inspired by LOWA's alpine heritage, the Wendelstein Warm GTX blends a classic trekking look with modern comfort and performance details such as a GORE-TEX Panda® lining for warmth and a rugged VIBRAM® outsole. Design touches reminiscent of traditional mountain boots include D-ring lace loops and stitched-down construction. It's a beautiful boot for stylish city walking and everyday cold weather wear. Durably waterproof/breathable.

LOWA TECHNICAL FEATURES

2-ZONE LACING

Independently adjustable lacing zones, one on the forefoot and one on the upper, allow user to customize the lacing tension and do special foot-hold lacing techniques.

DOUBLE INJECTION

Comfort and cushioning is further improved for specific uses with a complex injection-molding process using a layering process.

FLEXIBLE

Footwear labeled "flexible" has little rigidity. This quality supports the foot's natural rolling properties.

HARD STABILIZER

Nylon joint-stabilizing element offers perfect support for more intense outdoor activities.

LOWA DURAPU®

This denser PU material is used in our Classic & ATC models. It absorbs shock and rebounds well, and is extremely durable.

LOWA DYNAPU®

LOWA's proprietary PU midsole material is extremely lightweight yet provides ideal support, durability and rebound.

KIDS LAST

Our kids' models are made on kid's-specific lasts to ensure a perfect fit.

LOWA PU OUTSOLE

Conceived and developed by LOWA, this PU outsole has a tread design with varying lugs based on intended use. This outsole is used in particular for children's outsoles because it offers a good blend of lightness and abrasion resistance.

LOWA RUBBER OUTSOLE

Conceived and developed by LOWA, this rubber outsole varies in its rubber blend has a tread design with varying lugs, both factors based on intended use. Ideal for off-trail use.

LOWA TPU OUTSOLE

Conceived and developed by LOWA, this TPU outsole has a tread design with varying lugs based on intended use. TPU's advantages include excellent abrasion resistance, better flex, and the ability to use thinner and lighter outsoles. Ideal for casual, urban use.

MEDIUM STABILIZER

Nylon joint-stabilizing element offers optimal support for outdoor activities.

MINIMAL SEAMS

Construction design minimises the number of seams to prevent possible friction or pressure points.

MODERATELY STIFF

Footwear labeled "moderately stiff" provides a good combination of optimal support for the foot's musculature and pleasant rolling properties.

MONOWRAP®

Our exclusive PU frame technology delivers outstanding stability and support.

MONOWRAP® FIT

RESOLEABLE

LOWA can resole this product for an additional fee.

SINGLE INJECTION

This manufacturing method of injection molding offers the highest precision with a direct and solid connection between the sole and the upper.

SLIP RESISTANCE

Outsoles are engineered with high-traction materials to prevent slipping on wet ice

SOFT STABILIZER

Nylon joint-stabilizing element offers optimal support for recreational activity.

VERY FLEXIBLE

Footwear labeled "very flexible" has remarkably little rigidity. This footwear is characterised by exceptionally soft rolling properties.

WOMAN LAST

Our women's models are made on women's-specific lasts to ensure a perfect fit.

ZIPPER

Gusseted zippers on the medial (inner) side of the boot allow for easy on/off.

PLEASE NOTE: Stabilizer firmness designations (Hard-Medium-Soft) are relative to the other models within the category in which that product appears.

VIBRAM® “JANKUAT”

- Classic trekking oriented tread profile
- Higher profiled area for slip resistance
- High edge stability for optimal grip on wintry surfaces

VIBRAM® “ARCTIC GRIP TRAC®”
+ “ARCTIC GRIP TRAC® II”

- Large studs for the best uphill and downhill traction provided by VIBRAM® Arctic Grip technology (Polymer component mixture)
- VIBRAM® ICETREK rubber mixture designed particularly for low-temperature winter conditions
- Excellent slip resistance on cold, icy or snow-covered surfaces

LOWA® “WINTER TRAC”
+ “SNOW TRAC”

- Winter-applicable tread design for increased slip resistance in snowy condition
- Serrated stud arrangement
- Complex rubber compound combines durability with excellent support

LOWA® “SNEAKER WINTER”
+ “SNEAKER WINTER II”

- Classic sneaker sole with excellent grip
- Made for daily use
- Optimal balance of abrasion resistance and traction

LOWA® “AL-S IV”

- Triangular profile lug design for increased slip resistance & traction
- Abrasion-proof rubber with good support & flexibility
- Rocker design for comfortable walking

simply more...

LOWA boots are warranted to be free from defects in workmanship and materials for a period of 12 months from the date of purchase. Your exclusive remedy for break of such warranty is repair or replacement of your LOWA boots at LOWA's discretion. If your LOWA boots need repair or replacement due to defect in workmanship or materials, simply return them to the LOWA dealer where you purchased them. You will need proof of purchase. Make sure that your return request falls within 12 months from the date of purchase.

- See our website at www.lowaboos.com for directory listing of our dealers and warranty FAQ's. Please note that fit, paint thinner and lawn chemicals void the warranty.
- "Fit" is not covered in the warranty. You do the fitting, not us!
